Surabaya, Indonesia

Informatics Engineering student at Institut Teknologi Sepuluh Nopember with a strong passion for algorithmic logic, web development, and complex problem-solving. Seeking to leverage my programming expertise in innovative development projects. A rapid learner demonstrating high adaptability, exceptional teamwork, and proven leadership capabilities. Eager to continuously refine my technical skills through hands-on experience and collaborative environments.

Education Level

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia Jul 2024 - Jul 2028 (Expected)
Bachelor of Informatics Engineering, 3.96/4.00

- Bakti BCA Scholarship 2026: Selected as a scholarship awardee in recognition of academic excellence and outstanding leadership potential.
- OKKBK HMTc 2025 (Event Division): Orchestrated event scheduling and streamlined timeline coordination.

St. Louis 1 Catholic Senior High School Jul 2021 - May 2024
Senior High School, Natural Science, 92.18/100.00

- Achieved an outstanding UTBK SNBT 2024 score of 731.
- OSN Physics 2024: Represented the institution at the city/regency level competition.
- Served as Class President (Grade 12), directing class administration and coordinating student affairs.
- Appointed Project Officer for the Grade 12 practical exam performance, "Karol Wojtyła: Bullet of Peace", overseeing end-to-end planning and event execution.
- Student Council (Infrastructure & Facilities Division): Facilitated operational and organizational initiatives within the Organizational and Political Development Department.

Organizational Experience

Barunastra ITS - Surabaya, Indonesia Feb 2025 - Present
Programmer - Navigation and Control

- Engineered and optimized Autonomous Surface Vessel (ASV) navigation and control systems within a ROS2 and Ubuntu environment to ensure precise trajectory execution and systemic stability.
- Implemented Hybrid A* pathfinding coupled with a Stanley controller for robust autonomous navigation, directly contributing to a 1st Place victory at the International RoboBoat Competition (IRC) 2026.
- Developed custom report packages to seamlessly transmit real-time ASV telemetry and statistics to the RoboCommand host server during IRC 2026, and authored the comprehensive Technical Design Report.
- Served on the core team for Kontes Kapal Indonesia (KKI) 2025, optimizing the real-time web stream of ASV statistics by integrating ROSbridge and WebRTC protocols to guarantee low-latency monitoring and mission reliability.

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia Jan 2026 - Present
Assistant Lecturer of Operating Systems

- Instruct and manage a large-scale cohort of 100 students during regular lectures and coursework.
- Provide hands-on practicum guidance, assisting students in mastering complex operating system concepts.
- Act as an official examiner to rigorously assess, test, and grade student evaluations.

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia Jan 2026 - Present
Assistant Lecturer of Data Structure

- Facilitate interactive practical learning sessions for a class of 50 students.
- Design comprehensive practicum assignments centered on effective data structure implementation.
- Evaluate and grade complex technical assignments and source code written in C and C++.

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia

Jul 2025 - Dec 2025

Assistant Lecturer of Fundamental Programming

- Supported the primary lecturer in organizing, managing, and mentoring a class of 50 students.
- Formulated targeted practicum assessments to evaluate and enhance student comprehension.
- Authored instructional materials emphasizing foundational programming logic in C.

Schematics National Logic Competition - Surabaya, Indonesia

Mar 2026 - Present

Expert Staff of Technical

- Spearhead the design and execution of Final Round 2 game mechanics, governing technical workflows, asset development, and problem formulation.
- Engineer custom mini-applications utilizing Python to automate and support semifinal round operations.
- Execute rigorous, comprehensive testing across all competition systems to guarantee optimal performance, absolute fairness, and systemic reliability.

Schematics National Logic Competition - Surabaya, Indonesia

Mar 2025 - Nov 2025

Staff of Technical

- Piloted the design and implementation of Final Round 2 game mechanics, managing technical workflows and asset creation.
- Formulated Schemalock round challenges and conducted exhaustive testing on all games to verify performance, fairness, and system stability.

3C KMK ITS - Surabaya, Indonesia

Mar 2025 - Jun 2025

Staff of Data Center

- Administered participant registration protocols and performed rigorous data validation to guarantee accuracy and completeness.
- Leveraged spreadsheets to systematically organize, track, and maintain large volumes of participant data.
- Acted as the primary liaison for participants, resolving inquiries and sustaining transparent communication throughout the program.

St. Louis 1 Exhibition Competition Talent 2023 (IT FEST) - Surabaya, Indonesia

Jul 2023 - Oct 2023

Chairman

- Directed the comprehensive planning and coordination of an IT competition involving 40 participants, ensuring seamless execution from initial preparation to post-event reporting.
- Collaborated closely with faculty to draft proposals, strategize event planning, and manage documentation processes.
- Delegated responsibilities effectively across the organizing committee to optimize workflow efficiency and strictly adhere to timelines.

Student Council of St. Louis 1 Catholic Senior High School - Surabaya, Indonesia

Aug 2021 - Aug 2022

Member of Infrastructure and Facilities - Department of Organizational and Political Development

- Enforced regulatory compliance and maintained facility readiness to foster an orderly academic environment.
- Managed comprehensive logistics, technical setups, and audiovisual requirements for departmental and council-wide events.
- Facilitated operational coordination to guarantee all events were executed smoothly and efficiently.

Skills, Achievements & Other Experience

- **Hard Skills:** Python, C, C++, ROS2, OpenCV, YOLO, Git
- **Achievements** (2026): International Roboboat Competition 2026 Grand Champion

- **Achievements** (2026): 1st Place Autonomy Challenge, IRC 2026
- **Achievements** (2026): 1st Place Design Documentation, IRC 2026
- **Achievements** (2026): TOP Technical Design Report, IRC 2026
- **Achievements** (2025): Grand Champion Kontes Kapal Indonesia (KKI) 2025
- **Achievements** (2025): 4th Place Fuel Engine Remote Control, KKI 2025
- **Projects** (2026): Viz2Speech: Indonesian Spoken Image Captions to Enhance Accessibility for the Visually Impaired Using RL-Optimized VLM and Voice Synthesis
- **Projects** (2026): Pathfinding Visualizer App built utilizing Flask
- **Projects** (2025): Block Fill Solver App built utilizing Flask and OpenCV
- **Projects** (2025): To-Do List App built utilizing Laravel and MySQL
- **Projects** (2024): Karol Wojtyła: Bullet of Peace (Pope John Paul II) - Grade 12 Practical Exam Project
